OUR GUIDE TO AS9100 REV 2016

(If you don't have time to do it right - When will you have time to do it again?)

There is no hard shoulder at 40,000 feet!

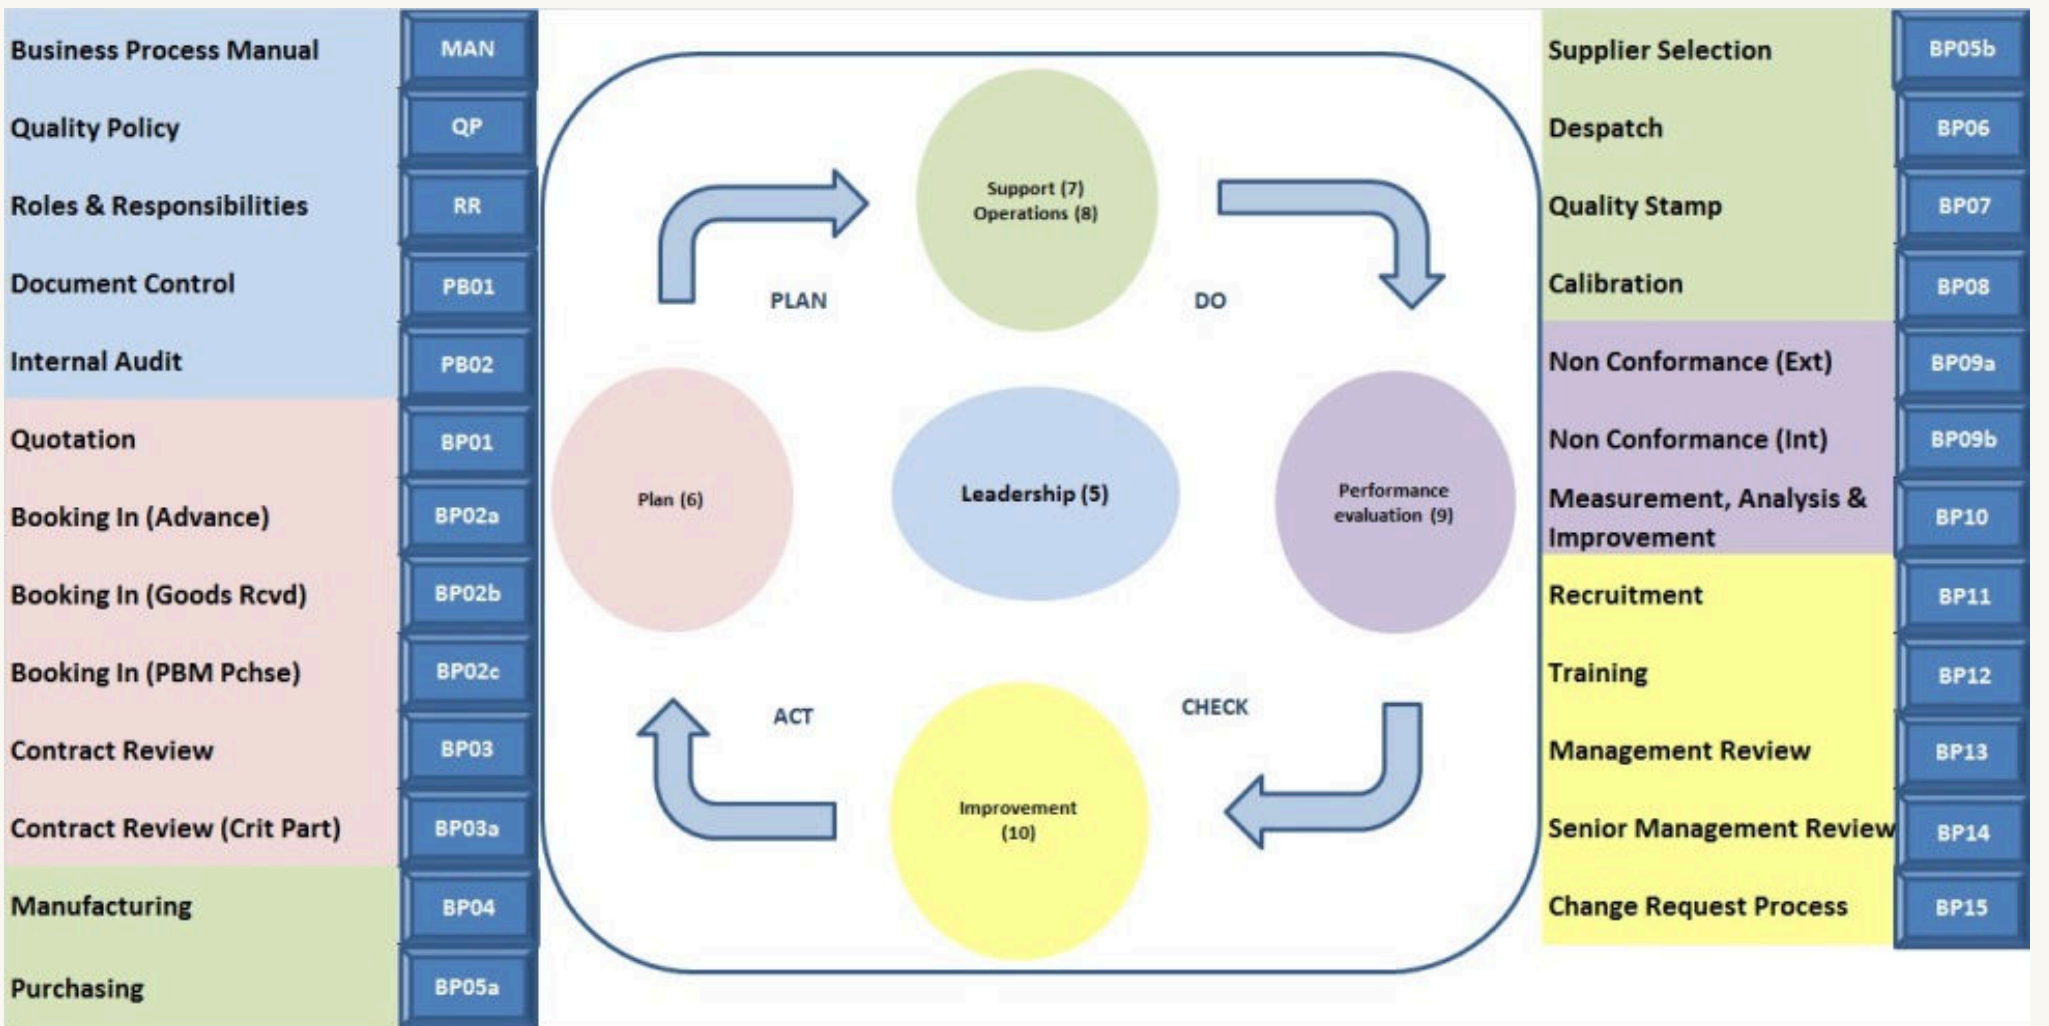

Mitigate risk at all stages including at quotation stage

Use the NCR process to continually improve and learn from mistakes

- Plan - Eliminate/Mitigate risk
- Do - What was planned
- Check - Measure & monitor what has been done
- Act - Carry out improvement actions

Our Implementation of A9100 Rev 2016

Remember, to continually improve you will never ever finish something - keep reviewing!
